The SEN Code of Practice 2015 is very clear when it discusses a setting's responsibility to support children with SEN and Disabilities including those with complex health needs. The early years inclusion team have outlined a few key points which are specific to supporting children with complex health needs for early years providers.

The Inclusion team advise that there are 6 areas which need to be considered prior to a child with complex health needs starting at a provision.

1. Po

2: Partnership with parents

Under

4: Team around the child meeting
